ON JANUARY 16, 2018.**

---

### **Pickleball Court Project: Addendum items in bold below**

Section 3.3.B. **Original scope for fencing was vague. Fence specifications must meet following requirements:**

- Chain link fabric shall be 9 gauge, galvanized after weave with 2.0 oz zinc coating/sq.ft chain link fencing.
- Chain link fabric shall be knuckled on both selvages.
- The contractor shall provide and install 2 ½” posts where needed, estimated every 10 feet.
- All terminals and gate posts shall be 3” OD.
- All posts will be set with concrete base, concrete not to extend above ground level.
- The fences shall have 7-gauge tension wire around the bottom.
- Contract price shall include all labor and materials, including ancillary fence parts (i.e. tension bars, claps, post caps, top rail sleeves, ties, hog rings, etc.) needed to provide a finished turnkey product.
- All equipment and materials shall be new and unused.
